Choose from rectangular, boat-shaped, or trapezoidal table tops available in fine-textured paint, white paint, HPL laminate, Fenix®, linoleum, or Walter Knoll veneers. For added functionality, optional connectors and cable routing sets are available for tables with panel legs. Prismatic panel legs require a cable routing set. Connectors with leather mid inlays and leather-covered covers are positioned at both ends. Panel leg tables can include a vertical cable duct and under-top cable tray. Solid base tables facilitate vertical and horizontal cabling without needing an additional cable routing set.

- **Choose between a straight edge** (42mm thickness) or a chamfered edge (42mm tapering to 13mm). Optional rounded corners (190mm radius) are available for trapezoidal and boat-shaped tops. Frame options include panel legs, prismatic panel legs, or a solid base in fine-textured or white paint. Conference tables can have a Congress leather mid inlay, extending to the edge for trapezoidal tops. Frame dimensions vary with table size and shape. Tables can be ordered to fit chair widths of 75, 80, or 85 cm.

Introducing a 10-meter personalized conference table crafted from precious materials, exuding natural elegance. The table features a sophisticated combination of light leather covering and a central top made from brown elm essence. It is enhanced with a retractable motorized monitor and microphone system in a luxurious gold finish. The A to Z conference table collection offers customizable designs, including oval, rectangular, and large round meeting tables, tailored to meet specific customer requirements.

Crafted from high-quality prelam particle board and adhering to stringent BIS norms, this product exemplifies superior craftsmanship and durability. Each piece undergoes a rigorous quality control process at multiple stages, with over 50 quality aspects meticulously checked to ensure excellence. Collaborating closely with our factory, we prioritize using the finest raw materials and achieving impeccable finished designs. **This model, with dimensions of 3000mm in length, 1200mm in width, and 750mm in height, comfortably accommodates eight seats. The primary material is prelam particle board, complemented by robust metal legs as the secondary material, finished in a sleek metallic brown color. The top thickness is 25mm, while the metal legs, constructed from stainless steel, ensure stability and durability, making this product a perfect blend of functionality and aesthetic appeal.**

CFS
SERIES

The conference table is constructed with 50 x 50 cm, 2 mm thick square mild steel legs, finished in powder-coated RAL shade colors. It features a 1.5 mm thick side modesty panel and includes a pop-up box with built-in USB data, voice, and power sockets. The table top is made from 25 mm thick prelaminated particle board in approved shades. All edges of the surface are finished with 1 mm thick imported PVC lipping, machine-pressed and glued with hotmelt EVA glue, ensuring they are free from any VOCs.
